

K-Love serves my immediate and other family members as well as many members of my church by uplifting us and encouraging us. If K-Love were to be displaced by an LPFM broadcaster providing other programming, I, along with along with others (at least 30 people I know) would be lost. We need K-Love. K-Love gives us a sense of community, as well as a bonding of kinship among one another. In my church and family as well as in my community, K-Love provides safe words for children and adults. There is no bad influence or negative music or comments. K-Love just wants to help people in need. It is very comforting to know that there is a pastor 24 hours a day that I or someone in need can consult with. Souls as well as lives have been saved because of K-Love. Thank-You.
